

**IN THE CLAIMS:**

Pursuant to the current PTO rules,

Please cancel Claims 36 and 37 and add the following new claims.

---

1           91.   (New) A plasma display panel comprising:  
2                   a first plate; and  
3                   a second plate that faces the first plate with a space therebetween, the first plate  
4   having first electrodes containing silver on a facing surface thereof, the second plate having  
5   second electrodes on a facing surface thereof, the space being filled with a gas medium;  
6                   wherein the facing surface of the first plate is glass that has been processed with  
7   additives so that the additives offset any shifting of color of the facing surface resulting from  
8   diffusion of silver into the first plate.

1           92.   (New) The plasma display panel of Claim 91 wherein metal ions of 1000 ppm or  
2   less are added to the glass.
